Career Objective

To undertake a challenging career opportunity where I can utilize my versatility and experience in a dynamic work environment. I am a motivated and detail orientated professional that exceeds expectations and delivers quality results on-time. Multi-skilled and a diligent team member, I possess strong technical and analytical skills that would be an asset to your team.

Skills and Software

Python	Bootstrap	Java	Macros
AutoLISP	JavaScript	Raspberry Pi	Customization
Scripting	JQuery	GitHub	Software Solutions
C#	AJAX	LINQ	Customer Service
ASP.NET	XML	WPF	Multi-tasking
.NET	JSON	SVG	Teamwork
Linux	SQL	REST	Soft-skills
HTML	CRUD	SOAP	Problem Solving
CSS	PHP	Android	Analysis

Skills and Experience

- Strong data fluency and automation.
- Successfully worked in a fast-paced environment.
- Continually exceeded expectations and delivered quality results on-time.
- Demonstrated ability to pick-up new software quickly.

Back-End Development:

- Generated full CRUD for SQL database integrations utilizing parameterized queries for security.
- Implemented validation class library for efficient use across multiple projects.
- Created custom DLL library in C# with full unit testing to ensure proper functionality.

Front-End Development:

- Proven experience implementing responsive designs for websites.
- Proficient at combining functional and creative layouts for graphical user interfaces.

Additional Skills:

- Strong team leader with good communication skills and English fluency.
- Passionate about data, logic theory and fundamental programming principles.

Team Skills:

- Developed automated scripts to effectively saving hundreds of man-hours.
- Experience maintaining setup of in-house software systems creating a coherent work environment.
- Trained and mentored a large office providing excellent software support.
- Documented official standards and software specifications.
- Successfully worked remotely for over two years.
